PROFESSIONAL SUMMARY

Artificial Intelligence undergraduate with hands-on experience in Computer Vision, Python development, and web technologies. Skilled in building real-time vision-based applications using OpenCV and facial recognition systems. Experienced in UI/UX design and passionate about developing intelligent and user-focused applications.

EDUCATION

B.Tech in Artificial Intelligence (3rd Year)

GH Raisoni College of Engineering and Management, Nagpur
2022 – 2027

TECHNICAL SKILLS

Programming Languages: Python, Java, C++

Computer Vision & AI: OpenCV, Face Recognition, NumPy, TensorFlow (Basic)

Web Development: HTML, CSS, React (Basic), Flask

Database: SQLite

Tools: Git, GitHub, VS Code, Figma, Miro, Wireframing

PROJECTS

Face Recognition Login System

Technologies: Python, Flask, OpenCV, Face Recognition, SQLite, HTML, CSS

- Developed a biometric authentication system using facial recognition instead of traditional passwords.
- Implemented face registration and login using OpenCV and Face Recognition with 128-dimensional facial embeddings.
- Built a Flask-based web application with session management and SQLite database integration.
- Designed a responsive user interface for seamless user authentication and account management.

Hand Gesture Recognition System

- Built a real-time hand gesture recognition application using Python and OpenCV.
- Processed live webcam input to detect and track hand movements.
- Enabled gesture-based interaction through computer vision techniques.

Color Detection System

- Developed a real-time color detection and identification system using OpenCV.
- Applied image processing techniques for accurate color classification.
- Utilized webcam input for dynamic color recognition.

EXPERIENCE

UI/UX Designer Intern | Wandile Ventures Pvt. Ltd.

Feb 2025 – Sept 2025

- Designed wireframes and user flows for an e-commerce platform (Looksyy).
- Created UI layouts and prototypes using Figma and Miro.
- Improved interface usability through structured design thinking.
- Collaborated with development teams to translate design concepts into functional interfaces.

CERTIFICATIONS

MKCL KLiC Diploma in Programming

Python – 92% | Java – 93% | C++ – 83%
